

**Program of IASP Global Year Against Joint Pain Satellite Meeting
in Association with SIG on Musculoskeletal Pain
on 25 September 2016 at the Pacifico Center, Yokohama, Japan**

**Is joint pain unique or does it share common features with other
musculoskeletal pain conditions?**

- 08:45 Welcome and introduction: Lars Arendt-Nielsen, LAN@hst.aau.dk, SMI, Aalborg University, Denmark
- 09:00 The epidemiology and impact of pain in joint pain. Tuhina Neogi, tneogi@bu.edu, Boston University School of Medicine, USA

Preclinical:

Moderator: Lars Arendt-Nielsen, LAN@hst.aau.dk, SMI, Aalborg University, Denmark

- 09:45 The sensitization process driven by articular and non-articular musculoskeletal nociceptive structures: Similarities and differences. Hans Georg Schaible, Hans-Georg.Schaible@mti.uni-jena.de, Universitätsklinikum Jena, Germany
- 10:25 Questions
- 10:40 Can a mechanisms based understanding of joint nociception identify novel pharmacological targets for treatment of arthritis pain? Victoria Chapman, victoria.chapman@nottingham.ac.uk, The University of Nottingham Medical School, Queen's Medical Centre, UK
- 11:20 Questions
- 11:35 Lunch

Clinical assessment:

Moderator: Serge Perrot, serge.perrot@htd.aphp.fr, Université Paris Descartes, France

- 13.00 Mechanistic, quantitative assessment of joint pain and other musculoskeletal pain conditions: Similarities and differences. Lars Arendt-Nielsen, LAN@hst.aau.dk, SMI, Aalborg University, Denmark
- 13.40 Questions
- 13.55 Assessing joint and other musculoskeletal pain conditions in the clinic: Similarities and differences. Gillian Hawker, g.hawker@utoronto.ca, University of Toronto, Canada
- 14.35 Questions

14.50 Afternoon tea

Clinical manifestations:

Moderator: Takahiro Ushida, ushidat@aichi-med-u.ac.jp, Aichi Medical University, Japan

15.20 Are the neuropathic components in joint pain and if so what are they? Serge Perrot, serge.perrot@htd.aphp.fr, Université Paris Descartes, France

15.50 Questions

16.05 Exercise in knee joint pain – an essential part of first line treatment. Søren Thorgaard Skou, sots@rn.dk, University of Southern Denmark and Aalborg University Hospital, Denmark

16.45 Questions

Young Investigator Presentations:

16:55: Experimental studies of hip joint pain. Masashi Izumi, jm-izumim@kochi-u.ac.jp, Kochi University, Japan

17:05: Predictors for persistent pain after joint replacement. Kristian Kjær Petersen, kkp@hst.aau.dk, SMI, Aalborg University, Denmark

17.15 Conclusions and information about the IASP Global Year against Joint Pain 2016. Serge Perrot, serge.perrot@htd.aphp.fr, Université Paris Descartes, France
